INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area (AA), including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

The Lending Test is rated Satisfactory.

- The loan-to-deposit ratio (LTD) is reasonable (considering seasonal variations and taking into account lending related activities) given the institution's size, financial condition, and AA credit needs.
- A majority of loans are in the institution's AA.
- The geographic distribution of loans reflects reasonable dispersion throughout the AA.
- The dispersion of borrowers reflects, given the demographics of the AA, reasonable penetration among businesses of different sizes and among individuals of different income levels.
- The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this factor did not affect the rating.

The Community Development Test is rated Satisfactory.

- The institution's community development performance demonstrates adequate responsiveness to community development needs in its AA through community development loans, qualified investments, and community development services, as appropriate, considering the institution's capacity and the need and availability of such opportunities for community development in the institution's AA.

DESCRIPTION OF INSTITUTION

Pan American Bank is a \$491.5 million commercial bank headquartered in Melrose Park, Illinois. The bank is wholly-owned by American Bancorp of Illinois, Inc., a one-bank holding company. The institution does not have any subsidiaries or affiliates that offer credit products, and is currently a designated Community Development Financial Institution (CDFI). Pan American Bank received a Satisfactory rating at its prior FDIC CRA Performance Evaluation, dated April 12, 2021, utilizing Interagency Intermediate Small Institution Examination Procedures.

Pan American Bank operates five full-service offices in its AA. The main office and three branches are located in Cook County (one in a low-income census tract, two in moderate-income census tracts, and one in an upper-income census tract), while one branch is in DuPage County (in a middle-income census tract). The Little Village office was relocated from 2627 W. Cermak Road in Chicago, Illinois, (Cook County) to 2737 W. Cermak Road in Chicago, Illinois on October 4, 2021. The office remained within the same low-income census tract. Pan American Bank did not open or close any other locations since the prior evaluation.

The bank offers a range of loan and deposit products for retail and commercial customers. Consumer loan products include residential real estate loans, home equity products, automobile loans, savings secured loans, and overdraft protection lines of credit.

Pan American Bank introduced two new consumer loan products since the last evaluation, Credit Booster and Small Dollar Loan. The Credit Booster is a loan program designed to help borrowers in hCook or DuPage counties with credit scores of 650 or less by extending low interest rate loans for \$1,000 at terms of 12 months. The Credit Booster program can potentially help increase customer credit scores, and the Bank places loan proceeds in a free checking account for the customer. There are two versions of this product:

1. Interest-only, where the customer makes interest-only payments on the loan and the payment history is reported to the credit reporting agencies. At the end of the 12-month term, the bank refunds the borrower their payments; however, the borrower does not receive the \$1,000 placed in the free checking account.
2. Principal and interest payments are made by the customer, and the payment history is reported to credit reporting agencies. At the end of the 12-month term, the borrower receives the \$1,000 placed in the free checking account but is not refunded the amount of interest they paid as part of their payments.

The Credit Booster Program started in November 2022. Customers applying for the loan watch a short video that discusses how the product works and provides information on credit scores. In addition, the bank has partnered with Allies for Community Business (A4CB) to share the Credit Booster program with their clients to assist in building/rebuilding their clients credit history. A4CB is a nonprofit organization located on the west side of Chicago that specializes in providing financing and technical assistance to entrepreneurs located in Illinois and Indiana.

Pan American Bank started offering a Small Dollar Loan program in July 2023, and ceased the offering after originating a program maximum of 100 loans. The bank designed the program to assist borrowers in Cook or DuPage counties that are experienced short-term financial hardships as an alternative to higher-cost payday loans. The loans originated for \$500, and included a low interest rate. The bank is currently not offering these loans.

Commercial loan products include working capital loans, equipment loans, and real estate-secured loans, including warehouse lines of credit. The bank also offers Small Business Administration (SBA) 7a and SBA 504 loans.

Deposit products include checking, savings, money market, certificates of deposit, and individual retirement accounts. Additionally, the Bank offers a free checking account product and a low-cost checking account product for small business owners. Alternative banking services include internet and mobile banking, electronic bill pay, direct deposit, person-to-person payments, and remote deposit. Banking hours allow reasonable access to bank services and include extended drive-up hours at four locations and Saturday hours at all five locations. Additionally, besides the Palatine and Little Village locations, offices have a 24-hour automated teller machine. The bank also has a stand-alone ATM located at Bellwood Village Hall. Further, the bank has staff that can speak Italian, Spanish, Greek, Polish, and Hindi.

According to the December 31, 2023 Consolidated Reports of Condition and Income (Call Report), Pan American Bank reported approximately \$491.5 million in total assets, \$437.6 million in total deposits, and \$393.0 million in total loans. Based on dollar volume within the bank's portfolio, the bank's largest loan type is commercial at 44.6 percent followed by multifamily residential at 22.5 percent and 1-4 family residential at 17.6 percent. Since the last evaluation, 1-4 family residential lending declined by 11.3 percent from 28.9 percent and multifamily declined by 2.3 percent from 24.8 percent. Commercial loans increased by 10.6 percent from 34.0 percent.

The last evaluation noted that 1-4 family residential lending was the bank's primary lending focus followed by commercial real estate lending. Based on the bank's loan portfolio and level of originations discussed within the following sections, the bank's primary lending focus is now commercial real estate lending followed by multifamily and 1-4 family residential lending. The loan portfolio is illustrated in the following table.

Examiners did not identify any financial, legal, or other impediments that affect the bank’s ability to meet the AA credit needs.

DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more AAs within which its CRA performance will be evaluated. Pan American Bank designated a single AA that includes the whole Illinois counties of Cook and DuPage. These counties are part of the Chicago-Naperville-Evanston, IL Metropolitan Division (MD) in the Chicago-Naperville-Arlington Heights, IL, Metropolitan Statistical Area (MSA). The AA includes contiguous census tracts, conforms to CRA regulatory requirements, and does not arbitrarily exclude any low- or moderate-income geographies.

Economic and Demographic Data

Examiners used demographic data from; the 2020 U.S. Census; the 2015 American Community Survey (ACS); and 2021 and 2022 D&B Data to analyze the bank’s CRA performance. Based on the 2020 U.S. Census, the AA includes 1,551 census tracts that reflect the following income designations:

- 226 low-income census tracts;
- 365 moderate-income census tracts;
- 459 middle-income census tracts;
- 485 upper-income census tracts; and
- 16 census tracts with no income designation

The following tables illustrate select demographic characteristics of the AA, based on the 2020 U.S. Census.

<i>Source: 2020 U.S. Census and 2023 D&B Data. Due to rounding, totals may not equal 100.0%</i> (*) The NA category consists of geographies that have not been assigned an income classification.						

While not presented, the demographic characteristics of the AA according to the 2015 ACS was similar in nature to the 2020 U.S. Census Data. According to 2015 ACS data, the AA included 1,535 census tracts. Low-income census tracts were 16.5 percent; moderate-income census tracts were 25.5 percent; middle-income census tracts were 25.9 percent; upper-income census tract were 31.3; and 0.8 percent of tracts had no income designation.

Based on 2015 ACS, while 42.0 percent of the geographies located within the AA are categorized as low- or moderate-income, only 26.0 percent of all owner-occupied units are located in these tracts. Low- income census tracts reflect particularly low owner-occupancy levels at 5.6 percent. Based on 2020 U.S. Census, although 38.1 percent of the geographies located within the AA are categorized as low- or moderate-income, only 25.5 percent of all owner-occupied units are located in these tracts. Low- income census tracts reflect particularly low owner-occupancy levels at 6.0 percent. This demographic data reveals a challenge that lenders face in providing home mortgage financing in low- and moderate-income areas for owner-occupied housing.

Examiners utilized 2015 ACS data when analyzing the bank’s 2021 lending and the 2020 U.S. Census data when analyzing 2022 and 2023 lending.

Pan American Bank provides a significant amount of financing for non-owner occupied, one-to-four family loans, and multi-family home mortgage loans. These loans are typically to investors for the purpose of providing rental housing. As such, examiners compared the bank’s performance under the Geographic Distribution criterion to the percentage of occupied rental units located within geographies by income level for non-owner occupied one-to-four family rental unit loans and to the percentage of multifamily 5+ unit properties for multifamily lending. 48.5 percent of occupied rental units are in low- and moderate-income census tracts based on 2015 ACS and 43.7 percent based upon 2020 U.S. Census data. 34.9 percent of multifamily properties are in low- and moderate-income census tracts based on 2015 ACS data and 30.5 percent based on 2020 U.S. Census data.

Based on 2015 ACS, 11.9 percent of families in the AA are those generating incomes below the poverty level. Based on the 2020 U.S. Census, 9.1 percent of families have incomes below the poverty level. This demographic, in conjunction with the stark contrast between the median family income level and high median housing value highlights difficulties that home mortgage lenders may face in providing traditional financing options to this market, including low-income borrowers.

Examiners used the 2021 and 2022 Federal Financial Institutions Examination Council (FFIEC) updated median family income level to analyze home mortgage loans under the Borrower Profile criterion. The following table contains information on the median family incomes by category.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
Chicago-Naperville-Evanston, IL Median Family Income (16984)

The analysis under the Geographic Distribution criterion compares the distribution of small business loans by geography to the percent of businesses located in each geography. According to the 2023 D&B data, the AA contains 833,472 non-farm businesses.

The 2023 D&B data also indicates that service industries represent the largest portion of businesses in the AA at 33.2 percent; followed by non-classifiable establishments (29.0 percent); and transportation and communication (10.9 percent). In addition, 57.7 percent of businesses have four or fewer employees, and 93.5 percent operate from a single location. The number of businesses with few employees, and those who operate from a single location highlights the prevalence of very small businesses in the AA.

The analysis of small business loans under the Borrower Profile criterion compares the distribution of businesses by gross annual revenue (GAR) level. The GARs of businesses operating in the AA are as follows:

- 89.8 percent in 2022 and 90.7 percent in 2023 have \$1.0 million or less,
- 3.9 percent in 2022 and 3.5 percent in 2023 have more than \$1.0 million, and
- 6.3 percent in 2022 and 5.8 percent in 2023 have unknown revenues.

Prior to the last evaluation, the Coronavirus Disease 2019 considerably affected local and global environments. The stay-at-home orders and temporary closures of non-essential businesses that became effective in March 2020 caused significant hardships for both individuals and businesses as reflected in the high average unemployment rates for 2020. Following 2020, throughout the majority of the review period, unemployment rates steadily improved. The following table outlines the average annual (not seasonally adjusted) unemployment rates of the bank’s AA during the review period.

Unemployment Rates			
Area	2021	2022	2023
	%	%	%

Competition

Pan American Bank operates in a competitive financial services market. Data from the FDIC Deposit Market Share Report as of June 30, 2023 indicates 109 financial institutions operating 1,421 offices within the AA. Of these, Pan American Bank ranked 52nd maintaining a 0.1 percent of the deposit market share. Large national and regional financial institutions with offices within the AA hold the majority of the market share.

The bank was not required to collect or report home mortgage loan data pursuant to the reporting requirements of the Home Mortgage Disclosure Act (HMDA). Therefore, examiners did not use aggregate HMDA lending data as a direct comparison to performance under the Lending Test; however, examiners considered aggregate HMDA lending data (aggregate data) as a measure of demand. The most recent aggregate data available (2022) reflects 18,263 conventional, non-owner occupied home mortgage loan originations and purchases by 513 lenders. This indicates a highly competitive market for originating or purchasing conventional non-owner occupied home mortgage loans in the AA.

Although the bank is not required to collect or report small business loan data pursuant to the reporting requirements of the CRA, aggregate data provides insight into the level of small business lending within the AA. The most recent aggregate small business lending data available (2022) reflects that 244 reporting lenders originated or purchased 190,537 small business loans within the AA. This indicates a highly competitive market for these types of loans.

Community Contact

As part of the evaluation process, examiners contact third parties active in the AA to assist in identifying the credit needs. This information provides examiners with insight regarding the opportunities available and assists in determining whether institutions are responsive to the credit needs of the AA.

Examiners reviewed a recent community contact interview to assist examiners in identifying and understanding the credit and community development needs of the AA. The interview was performed with a representative from a CDFI that supports small businesses in the Chicagoland area and primarily serves Black, Hispanic, women, and low-income entrepreneurs. The contact identified credit needs financing for Black and Hispanic-owned businesses due to disparities in capital available to majority-Black and Hispanic neighborhoods compared to majority-White neighborhoods and to Black and Hispanic entrepreneurs compared to White entrepreneurs, specifically for loans in the amounts of \$500 to \$100,000.

Credit and Community Development Needs and Opportunities

Considering information from the community contact, bank management, and demographic and economic data, examiners determined that loans supporting affordable housing and small business loans for minority and low-income borrowers represent significant credit needs in the AA.

The AA provides numerous opportunities for involvement in community development activities. The greater Chicago metropolitan area contains multiple opportunity zones and tax increment financing districts designated by local or state government entities for revitalization, stabilization, or economic development. These areas are established to stimulate economic activities that include job preservation and creation, and business and residential development. Federal, state, and local governments offer numerous programs to support area credit and community development needs.

SCOPE OF EVALUATION

General Information

The evaluation covers the period from the previous evaluation dated April 12, 2021, to the current evaluation dated February 26, 2024. Examiners used the Interagency Intermediate Small Institution Examination Procedures to evaluate Pan American Bank's CRA performance. These procedures include the Lending Test and the Community Development Test as outlined in the Intermediate Small Bank Performance Criteria Appendix. Financial institutions must achieve a satisfactory rating under each of these tests to obtain an overall Satisfactory rating.

Activities Reviewed

Through a review of Pan American Bank's business strategy, loan portfolio composition, and number and dollar volume of loan originations during the evaluation period, examiners determined that the bank's major product lines are home mortgage and small businesses loans. The bank did

not originate any small farm loans during the review period, and consumer loans do not represent a significant portion of lending. Small business performance received greater weight since lending volume and focus is greater for this product.

Examiners analyzed the institution's home mortgage loans originated or purchased from January 1, 2021, through December 31, 2022. In 2021 and 2022, the bank was not required to report HMDA data but did record the applicable data. Examiners validated a sample of these loans to ensure the accuracy of recorded data. Subsequently, all home mortgage loans recorded as originated or purchased by the bank in 2021 and 2022 were analyzed. The bank recorded 28 home mortgage loans totaling \$12.6 million in 2021 and 46 home mortgage loans totaling \$26.9 million in 2022. Six loans in 2022 were affordable housing loans for one-to-four family rental properties that the bank opted to have considered within the Community Development Test as permissible within the evaluation criteria. As a result, for 2022, examiners reviewed 40 home mortgage loans for \$25.7 million within the Lending Test.

A significant portion of Pan American Bank's home mortgage loans are non-owner occupied, one-to-four family residential loans and multifamily loans. Therefore, examiners discuss the bank's home mortgage performance by specific loan type, with non-owner occupied products providing greater weight to examiner conclusions. The 2015 ACS and 2020 U.S. Census data provided a standard of comparison for the bank's home mortgage lending performance.

The bank originated or purchased 113 small business loans totaling \$34.1 million in 2022, and 82 small business loans totaling \$25.2 million in 2023. Examiners reviewed the universe of small business loans for AA concentration and the Geographic Distribution criterion. As the bank is not required to collect or report CRA data, in accordance with sampling guidelines, examiners reviewed a sample of the small business loans for the Borrower Profile criterion. The 2022 sample included 50 small business loans totaling \$14.9 million, of which 29 small business loans were located in the AA. The 2023 sample included 46 small business loans totaling \$15.4 million, of which 41 small business loans were located in the AA. D&B data provided a standard of comparison for the bank's small business lending performance. Examiners considered this time period representative of the bank's performance during the entire evaluation period for small business lending.

Within the Geographic Distribution and Borrower Profile criterion, examiners considered only those loans originated within the AA. Examiners reviewed and presented both the number and dollar volume of loans; however, examiners emphasized performance by number of loans as this is a better indicator of the number of borrowers and businesses served in the AA.

Examiners considered community development loans, qualified investments, and community development services since the prior CRA evaluation under the Community Development Test.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

Pan American Bank demonstrated reasonable performance under the Lending Test. Performance under the LTD Ratio, AA Concentration, Geographic Distribution, and Borrower Profile supports this conclusion.

Loan-to-Deposit Ratio

The LTD ratio is reasonable given the institution's size, financial condition, and loan portfolio concentration. Based on Call Report data for the previous 11 quarters (from June 30, 2021, through December 31, 2023), Pan American Bank's net LTD ratio averaged 84.6 percent. The net LTD ratio was relatively stable during the review period, ranging between a high of 90.1 percent in June 30, 2023, and a low of 72.3 percent in December 31, 2021. Examiners compared the average net LTD ratio to four similarly situated financial institutions (SSIs). The SSIs include banks operating in a similar market area and having comparable lending concentrations, with a focus on commercial lending. The SSIs maintained an average net LTD ratio of 72.3 percent, ranging from 51.8 percent to 89.6 percent as depicted in the following table.

LTD Ratio Comparison		
Institution	Total Assets as of 12/31/2023 (\$000s)	Average Net LTD Ratio (%)

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the AA. Examiners focused on lending penetrations in low- and moderate-income census tracts and emphasized performance by number of loans, as the number of loans is a better indicator of the number of individuals and businesses served.

Small Business Loans

The geographic distribution of small business loans reflects reasonable dispersion throughout the AA. Performance is measured against the percentage of businesses (demographic) within each census tract level. The following table shows the bank's lending to businesses located in low-income census tracts was well above demographic data in 2022 and slightly below demographic data in 2023. Additionally, the bank's lending performance in moderate-income census tracts was above demographics in 2022 and 2023. The bank's performance in both low- and moderate-income is reasonable.

Home Mortgage Loans

The geographic distribution of home mortgage loans reflects reasonable dispersion throughout the AA. Examiners separately analyzed the performance of non-owner-occupied 1-4 family residential; multifamily housing; and owner occupied 1-4 family residential. As stated previously, the bank's home mortgage lending focus is commercial purpose, non-owner occupied home mortgage loans. Therefore, examiners focused the analysis under these criteria more on non-owner occupied home mortgage loans, reviewed separately between 1-4 family and multifamily lending.

Non-Owner Occupied 1-4 Family Home Mortgage Loans

The geographic distribution of non-owner occupied 1-4 family home mortgage loans reflects reasonable performance throughout the AA. Examiners measured performance against the percentage of occupied rental housing units in the different census tract income categories (demographic data).

Within low-income census tracts, the bank's performance was significantly above demographic data in 2021 and above it in 2022. The bank made no loans in moderate-income census tracts in 2021, and performance was slightly below demographic data in 2022.

Although the bank did not report and is not included in aggregate data, this data helps provide an indication of actual loan demand. Within low-income census tracts, aggregate performance was

below the bank’s performance at 10.2 percent in 2021 and 13.2 percent in 2022. In moderate-income census tracts, aggregate performance was 22.9 percent in 2021 and 26.2 percent in 2022. Taking this additional information into consideration, the bank’s excellent performance in low-income census tracts and reasonable performance in moderate-income census tracts results in overall reasonable performance.

Multifamily Home Mortgage Loans

The geographic distribution of multifamily home mortgage loans reflects reasonable performance throughout the AA. Examiners measured performance against the percentage of multifamily 5+ units properties (demographic data) located in the census tracts by income level.

Within low-income census tracts, the bank’s performance was significantly above demographic data in 2021 and below it in 2022. For moderate-income census tracts, the bank’s performance was above demographic data in 2021 and below it in 2022. Overall, the bank’s low- and moderate-income census tract performance is reasonable overall.

Owner-Occupied 1-4 Family Home Mortgage Loans

The geographic distribution of owner-occupied 1-4 family home mortgage loans reflects reasonable performance. Examiners measured the performance against the percentage of owner occupied housing units in the different census tract income categories (demographic data). The bank's performance in low-income census tracts was above the demographic data in 2021 and 2022 with the bank originating one loan in low-income tracts each year. The bank made no loans in moderate-income census tracts in 2021 or 2022.

While the bank does not report aggregate data and is not included in these numbers, aggregate data helps provide an indication of loan demand. Within low-income census tracts, aggregate performance of 5.8 percent in 2021 and 10.1 percent in 2022 is generally consistent with the bank's performance. In moderate-income census tracts, aggregate performance of 15.9 percent in 2021 and 21.7 percent in 2022 indicates that there is a demand for loans in these tracts.

Given the bank's performance in low-income census tracts, the bank's performance is reasonable.

Borrower Profile

The distribution of loans to borrowers reflects reasonable penetration among businesses of different sizes and borrowers of different income levels. The bank’s reasonable small business lending performance and reasonable owner-occupied home mortgage lending performance supports this conclusion.

Within home mortgage lending, examiners reviewed only owner-occupied loans. For non-owner occupied loans, a large volume of Pan American Bank’s home mortgage loans are secured by non-owner occupied properties in which the borrowers’ income was not collected and examiners could not draw meaningful conclusions regarding the distribution of non-owner occupied home mortgage loans by borrowers of different income levels. Additionally, the bank did not collect income information on multifamily home mortgage loans, and these were not reviewed under this criterion.

Small Business Loans

The distribution of loans reflects reasonable penetration among businesses of different sizes. Performance is measured against the percentage of businesses with GARs of \$1 million or less (demographic). As shown in the following table, in 2022 and 2023, the bank’s performance to

businesses with GARs of \$1 million or less lagged the demographic data in this revenue category. However, not all small businesses are seeking traditional financing.

For many small businesses, credit needs are often met through credit card and home equity financing. Demographic data indicates there is a large volume of small businesses in the AA that could potentially seek alternative forms of financing. Within the AA, 57.7 percent of businesses have four employees or less, indicating they may be seeking credit through other means.

Additionally, examiners considered the aggregate lending data for the most recent year available, 2022, for loans made to businesses with GARs of \$1 million or less. Those reporting institutions saw 53.3 percent of originated or purchased small business loans were to businesses with GAR's with \$1 million or less. Although the bank did not report small business data, this provides an indication of AA demand.

Finally, examiners identified three similarly situated banks that operate within the bank's AA and originated small business loans. In 2022, one bank's performance was considered poor with 33.3 percent of originations by number to businesses with GAR's of \$1 million or less, and the other two institutions performance was considered reasonable at 54.4 percent and 64.3 percent of loans originated to these businesses. Pan American Bank's 2022 performance of 62.1 percent is above two of these banks and slightly below one of them.

Based on the above context factors, the bank's small business lending performance is reasonable.

Owner-Occupied 1-4 Family Home Mortgage Loans

The distribution of home mortgage loans reflects reasonable penetration of loans to individuals of different income levels, including low- and moderate-income borrowers. Examiners measured performance against the percentage of families (demographic) within each income level. The table below reflects the distribution of home mortgage loans by borrower income level.

In 2021, the bank made no loans to low-income borrowers, while in 2022, the bank’s lending was significantly above demographic. Further, although the bank is not a HMDA reporter, aggregate data provides information on the level of demand in the assessment area from low-income borrowers. Aggregate data for low-income was 5.8 percent in 2021 and 10.1 percent in 2022. The fact that aggregate HMDA lending data trailed demographic data for low-income families in 2021 and 2022, illustrates that lenders face certain challenges when serving this market. Considering these factors, performance is reasonable.

The bank did not make any loans to moderate-income borrowers in 2021 or 2022. Although the bank is not a HMDA reporter, aggregate data provides information on the level of demand in the AA from moderate-income borrowers. Aggregate data for moderate-income was 15.9 percent in 2021 and 21.7 percent in 2022. Considering these factors, performance is poor.

Additionally, 11.9 percent of families in the AA generate income below the poverty level based on 2015 ACS and 9.1 percent based on 2020 U.S. Census. These families likely face difficulties in qualifying for home mortgage loans in amounts needed to afford a home in the AA. Overall, based on the bank's performance in lending to low-income borrowers in 2022, the bank's performance is reasonable.

Credit Booster and Small Dollar Loans

As mentioned previously, since the last evaluation the bank offered a Credit Booster and Small Dollar Loan program. The bank made 114 Small Dollar loans for \$57,000 to borrowers in the AA when it offered the program in 2023. Of these loans, 51 were in either low- or moderate-income census tracts. The bank made 20 Credit Booster loans for \$20,000 to borrowers in the AA since the last evaluation. Of these loans, nine were in low- or moderate-income census tracts. Although not specifically targeted to low- or moderate-income borrowers, these are low-cost programs that can help increase credit access to borrowers, including low- and moderate-income borrowers, and demonstrates efforts by the bank to increase lending opportunities to low- and moderate-income borrowers.

Response to Complaints

Pan American Bank did not receive any CRA-related complaints since the previous evaluation; therefore, this criterion did not affect the rating.

COMMUNITY DEVELOPMENT TEST

Pan American Bank demonstrated adequate responsiveness to the community development needs in its AA through community development loans, qualified investments, and community development services, considering the institution's capacity and the need and availability of such opportunities for community development in the institution's AA. Examiners compared the bank's community development activities to that of four other similarly situated banks (SSBs) operating within the AA who have comparable asset sizes and were recently evaluated for CRA community development performance.

Community Development Loans

During the evaluation period, the bank originated 47 community development loans totaling approximately \$36.0 million. This activity represents approximately 10.4 percent of average net loans since the previous evaluation. The bank originated all of its community development lending either to entities that provide affordable housing or for SBA 504 loans. This is responsive to the AA's affordable housing and economic development needs identified by the community contact.

Pan American Bank's level of community development lending was comparable with the SSB's community development lending and on the upper end of performance, with a range of 5.5 to 11.2 percent of average total loans. The following table details community development loans by year and type.

The following are examples of the bank’s community development loans, each helping meet an identified need for affordable housing within the bank’s AA:

- A loan for the purchase of a 15-unit multifamily building in a moderate-income census tract with 14 units having affordable rents.
- A loan for the purchase of a 12-unit multifamily building in a moderate-income census tract with all units having affordable rents.
- A loan for the purchase and improvement of a 14-unit in a moderate-income census tract with all units having affordable rents.

Qualified Investments

Pan American Bank extended \$75,000 for a qualified investment and \$21,000 for eight donations, totaling \$96,000 in qualified investments. The dollar amount of qualified investments represents 0.2 percent of the average total securities since the previous evaluation.

The bank’s level of qualified investments to average total securities was below all three applicable SSBs, as one of the SSBs does not maintain a securities portfolio. Specifically, the SSBs had qualified investments to average total securities between 5.8 percent and 11.5 percent. The following table provides details on the bank’s qualified investment and donations.

The following are examples of the bank’s qualified investment activities:

- In 2022, the bank renewed a \$75,000 investment in a loan pool of a nonprofit to extend small dollar business loans. The bank also donated \$5,000 to this organization in 2023.
- During the review period, the bank made three donations to a nonprofit organization that aims to help children in need with new housing, education, recreation, social skills, and self-sufficiency. The nonprofit provides shelter and tutoring for neglected or abused children, domestic violence prevention programs, and job training and college tuition.

Community Development Services

During the evaluation period, bank employees provided 13 instances of community development services within the AA, totaling 29.5 hours. This level of community development services is comparable to the four SSIs, which ranged from 1 to 16 services. The following table details the number of community development services provided by Pan American Bank by year and type.

These services meet the definition of community development and relate to the provision of financial services, utilizing the financial expertise of staff. Notable examples of community development services include:

- Two employees provided training to individuals in a low-income census tract on how to create a business plan, financials needed to apply for a small business loan, and how to grow a business.
- Three employees provided financial education to residents of an assisted living facility that engages and supports individuals and families with autism and other intellectual and developmental disabilities.

The bank also has a branch in a low-income census tract (Little Village location in Chicago), two locations in moderate-income census tracts (main office in Melrose Park and Bellwood branch), and a remote non-deposit-taking ATM located at the Bellwood Village Building Hall in a moderate-income census tract.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

The bank's compliance with the laws relating to discrimination and other illegal credit practices was reviewed, including the Fair Housing Act and Equal Credit Opportunity Act. Examiners did not identify any evidence of discriminatory or other illegal credit practices.

APPENDICES

INTERMEDIATE SMALL BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

- 1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
- 2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
- 3) The geographic distribution of the bank's loans;
- 4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
- 5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

Community Development Test

The Community Development Test considers the following criteria:

- 1) The number and amount of community development loans;
- 2) The number and amount of qualified investments;
- 3) The extent to which the bank provides community development services; and
- 4) The bank's responsiveness through such activities to community development lending, investment, and service needs.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Institution CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Institution CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose institution:
 - (i) Has not been reported or collected by the institution or an affiliate for consideration in the institution's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the institution's assessment area(s) or a broader statewide or regional area including the institution's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the institution's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (e.g, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as **non-MSA**): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

Illinois Community Reinvestment Act Notice

Under the Illinois Community Reinvestment Act (ILCRA), the Secretary of the Department of Financial and Professional Regulation (Secretary) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The Secretary also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the ILCRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent ILCRA Performance Evaluation, prepared by the Secretary; and comments received from the public relating to our performance in helping to meet community credit needs, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each quarter, the Secretary publishes a list of the banks that are scheduled for ILCRA examination in that quarter. This list is available from the Secretary at 320 West Washing Street, 3rd Floor Springfield, IL 62786 and 555 West Monroe Street, Suite 500 Chicago, IL 60661. You may send written comments about our performance in helping to meet community credit needs to (name and address of official at bank) and Secretary. You may also submit comments electronically through the Department's Web site at <https://idfpr.illinois.gov/admin/cra.html>. Your letter, together with any response by us, will be considered by the Secretary in evaluating our ILCRA performance and may be made public.

You may ask to look at any comments received by the Secretary. You may also request from the Secretary an announcement of our applications covered by the ILCRA filed with the Secretary.

We are an affiliate of Solvtrust Financial Corp, Inc., a bank holding company. You may request from the Director of Applications, Federal Reserve Bank of Chicago, 230 S. La Salle Street, Chicago Illinois 60604 an announcement of applications covered by the ILCRA filed by bank holding companies.
